- Reduces clutter, improves wire management
- Convenient controls

SoundBar

ALTEC LANSING®

sfx™
Sound-widening technology

XdB™
Powerful bass with XdB technology

AUX

THERE'S NO BETTER-SOUNDING WAY TO CLEAR YOUR DESK.

"Immersive sound" is an audio advance that changes the listening experience. Music no longer seems to come through a speaker, but from an extended soundstage. Altec Lansing's proprietary SFX signal-processing immersion technology audibly widens the soundstage to a startling degree. Tuck it under your flat-screen monitor for a new audio experience — and enjoy a refreshingly open desktop, improved wire management and simplified speaker connections to your PC and iPod® or CD player.

SoundBar

Immersive, Crystal-clear Sound

Powerful 2+1 system maximizes performance and clarity with two 2" precision-engineered speakers and a large bass pressure driver.

Expanded Sound Stage

Full-range angled speakers and Altec Lansing's proprietary SFX technology combine to widen the audio image.

Powerful bass

XdB technology brings out the bass without a subwoofer.

Creative use of space

Tucks under your flat-screen monitor.

Reduced clutter

Connections are simplified. Elegant wire-management gives you more room on your desktop.

Convenient Controls

Volume and mute controls are at your fingertips.

Auxiliary Input

Connects other audio devices, including older iPod models, iPod shuffle, other MP3 players, or laptops (cable included).

Headphone Jack

For private listening.
